SUMMARY

As an enthusiastic and driven individual, I am excited to pursue a degree in computer science at your prestigious university. With a strong foundation in mathematics and logical reasoning, I am confident in my ability to excel in the field of computer science. My experience with programming languages such as Python and Java, as well as my participation in coding competitions, has further strengthened my skills and interest in this field. I am excited to learn more about the latest developments in computer science and to contribute to the field through my studies and research. I believe that your university's rigorous academic program and supportive learning environment will provide me with the best opportunity to achieve my goals.

SKILLS

- C++, Python, Java
- Microsoft Project
- HTML, CSS, SASS
